

PRESS RELEASE

CGNPE closes RMB 3.69 billion CGN Capital Partners Infrastructure Fund III

Shenzhen, 1 June 2017 - CGN Private Equity Fund Management Company Limited (“CGNPE”) and JIDA Capital Partners Limited (“JIDA Capital”) are pleased to announce the final close of CGN Capital Partners Infrastructure Fund III L.P. (“CGN Fund III” or the “Fund”) with an aggregate committed capital of RMB 3.69 billion.

CGN Fund III, incorporated in Qianhai, Shenzhen, is an unlisted private equity infrastructure fund focusing on renewable energy and infrastructure assets in China. The Fund’s investment strategy is to invest predominantly in renewable energy spectrum, with focus on wind, solar and hydro power generation assets, which offers sustainable yields and moderate capital growth over a medium-term investment horizon.

The Fund has secured commitments from a range of institutional investors including three of China’s largest banks, two of China’s largest insurance companies, two of China’s largest asset management companies, a UK listed global utility and infrastructure investment company as well as CGN Group and China Three Gorges Group, two of China’s largest clean energy power companies that focus on investing and operating assets in the Fund’s target sectors.

To date, the Fund has invested or committed to invest over RMB1.3 billion in renewable energy assets consistent with the Fund’s investment strategy, with an existing portfolio of 640MW of wind and solar power generation assets in Shandong, Yunnan and Hebei provinces. The Fund’s investment team is also actively pursuing another 620MW of renewable energy assets in the pipeline.

About CGNPE

CGN Private Equity Fund Management Company Limited is a private equity firm based in Shenzhen, China. CGNPE is a subsidiary of China General Nuclear Power Company. CGNPE focuses on clean energy related infrastructure and private equity investments. CGNPE currently has circa RMB 20 billion funds under management.

About CGN

China General Nuclear Power Company (“CGN”) has one of the largest clean energy power generation businesses in China. As at the end of December 2016, CGN Group has 38,000

employees operating in over 26 countries, with over 43GW installed capacity of operating generation assets including over 20GW in nuclear power, accounting for 61% of operating nuclear power stations in China, as well as 10GW in wind power and 2GW in solar power. CGN's four core businesses are nuclear power, nuclear fuel, renewable energy and finance, each business is operated through professional subsidiaries, and three of which are currently listed on the Stock Exchange of Hong Kong (namely, CGN Power, CGN New Energy and CGN Mining).
